FUNNIEST TWEETS BY ELON MUSK

Words By: Aamir Khollam

If life is a video game, the graphics are great, but the plot is confusing & the tutorial is way too long

Elon Musk was clearly a trending topic throughout a big chunk of 2022 thanks to his Twitter takeover.

The billionaire was met with a divided reception once he bought Twitter for \$44 billion dollars. While one side of the internet loved that the microblogging platform will now be liberated from the shackles of a stringent corporation, others feared Elon has too much on his plate leading to Twitter's downfall. Musk has a long relationship with Twitter well before he ever took over the platform as its owner. He is perhaps the only mainstream tech leader and billionaire out there who does not take himself too seriously and shares memes/funny tweets regularly. In our 17th Anniversary special, we wanted to have a look at some of Elon Musk's best tweets. Check them out -

Defeating traffic is the ultimate boss battle. Even the most powerful humans in the world cannot defeat traffic.

Pop music has both literal & figurative Stockholm Syndrome

17-INCH LAPTOPS IN 2023

Words By: Sandesh Bhosle

Earlier, 17-inch laptops were criticised for being large and bulky, but today they are one of the most sought-after laptops in the market. The 17-inch laptops offer a significantly larger screen and can easily replace your desktops, making a decent space for a cup of coffee on your table. They are made for content creators and people who're into streaming TV shows and spend a lot of time working with multiple spreadsheets.

ALIENWARE M17 R5 (AMD ADVANTAGE)

Launched in July 2022, Alienware m17 R5 is the best gaming laptop in the 17-inch segment. The company teams up with AMD to make one of the excellent laptops of the decade. The powerful laptop offers excellent performance with its 32GB of RAM Ryzen 9 6900XT processor, Radeon RX 6850 XT GPU graphics with 12GB of VRAM, a 1TB PCIe NVMe M.2 SSD, and a 3840 x 2160 display with a 120Hz refresh rate.

CPU: AMD Ryzen 9 6900XT
GPU: AMD Radeon RX 6850 XT/AMD Radeon Graphics
RAM: 32GB
Storage: 1TB PCIe NVMe M.2 SSD

REASONS TO BUY

Solid battery life

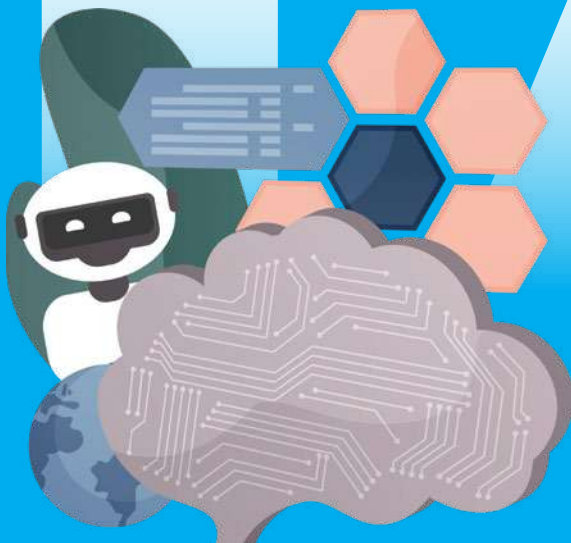

Great gaming and overall performance

REASONS TO AVOID

Expensive

AI TOOLS TO EXPLORE IN 2023

Words By: Pratik Ghone

Artificial intelligence (AI) leapt forward in 2022, reaching the masses. It's everywhere! In 2023, a wide variety of AI tools will be available for exploration, each with unique capabilities and applications. With the right approach, these AI tools are significant for businesses and individuals. This article will look at 17 AI tools worth exploring in the upcoming year.

NO. 1

TENSORFLOW

This open-source software library is one of the most popular tools for machine learning and deep learning. It's widely used for image recognition, natural language processing, and other tasks.

NO. 2

KERAS

Another popular open-source library, Keras, is a high-level neural networks API that can run on top of TensorFlow. It's easy to use and is well-suited for prototyping and experimentation.

NO. 3

PYTORCH

This open-source machine learning library is similar to TensorFlow but is more focused on research and experimentation. It's often used for computer vision and natural language processing tasks.

MUST-HAVE TECH ESSENTIALS

Words By: Sandesh Bhosle

We're living in a time when one can not imagine a life without tech. The technology industry has been evolving rapidly, and it can be tough to keep up with the latest gadgets and devices. Here, we have compiled a list of 17 must-have tech essentials in 2023 that will help you stay ahead of the curve.

NO. 1

SMARTPHONE

A smartphone is a handheld device that combines a computer, camera, and more into one convenient package, and all of us have one in our pockets. The latest models are equipped with advanced features like facial recognition, fingerprint sensors, and improved camera technology.

NO. 2

LAPTOPS

Laptops have become essential for both personal and professional use. They are lightweight, portable, and offer powerful performance, making them ideal for on-the-go computing.

NO. 3

TABLETS

Tablets are versatile devices that can be used for everything from entertainment to productivity. They offer a large, high-resolution display and touch-based interface, making them ideal for browsing the web, playing games, and more.

NO. 4

SMART WATCHES

Smartwatches are cutting-edge accessory that provides fitness tracking, notifications, and access to virtual assistants. They come in various styles and designs to suit your taste.

NO. 5

WIRELESS HEADPHONES

Wireless headphones are an

Guru **RANDHAWA**

**LIGHTS,
CAMERA,
MUSIC!**

With his soulful voice, catchy tunes, and engaging lyrics, Guru Randhawa has taken the Punjabi music industry by storm and has won the hearts of millions of fans not just in India but across the globe.

Besides being a musician, he is a tech-savvy individual who has leveraged the power of technology to reach out to his fans and grow his fan base, along with experimenting with new-age music production techniques.

His ability to blend traditional Punjabi folk music with contemporary pop beats is a testament to his innovative spirit and willingness to embrace new technologies. In this exclusive interview, we delve deeper into Guru Randhawa's journey as a musician and his thoughts on the intersection of music and technology. We explore the various aspects of his work that have made him a household name in the Indian music industry.

A full-page fashion photograph of a man with dark hair and a slight beard, wearing a black and white houndstooth suit. He is leaning against a grey brick wall, with his right leg bent and his right hand in his pocket. He is wearing black leather shoes. The background features a large window with a black frame on the left and a brick wall on the right. The lighting is dramatic, with strong shadows.

Here's what's been up! Exhibit curated and managed end to end the high decibel launch of Mahindra EVs a few evenings ago where we invited Vicky Kaushal, Disha Patani, and Tara Sutaria along with 50+ Influencers

We also managed the collaboration with two leading designers - Cutecircuit, world's first wearable tech brand and BODICE, an award winning contemporary label and they created bespoke collections inspired by the cars and the twin peaks logo to Mahindra.

The #10f1 Mahindra XUV400 especially designed by Rimzim Dadu x Pratap Bose unveiled at the Tech Fashion Tour Season 6 was auctioned at a whopping INR 1.1 Cr!
